ABOUT THE SCRIPTA SAVINGS STRATEGIES IN YOUR REPORT

\$4/\$9 PROGRAM: Get this drug for \$4 or \$9 at Walmart.

ALTERNATE GENERIC: You're already taking a generic drug. This one is a better buy.

FORM SWITCH: Pills, patch, liquid, cream - pay less for your med in a different form.

FREQUENCY CHANGE: Adjust how often you take this drug to save.

GENERIC: Ask your pharmacist to switch to this exact equivalent drug for savings.

MULTI-PILLS: Taking a lower-dosage pill in greater quantity will help you lessen costs.

NEW BRAND: Stick with a brand name, for less! Another brand is cheaper.

OTC: Get this more affordable "Over-the-Counter" option at your pharmacy.

PHARMACY CHANGE: Shop around! This retailer offers the best savings on your med.

PILL SPLIT: Split this higher dosage of your med with any pill splitter to cut costs.

RELATED: This generic drug treats the same condition as your med for less.

SEPARATE: Multiple drugs were combined to create your med. Take them separately & save.

*Average copay (monthly) is based on your insurance plan. Price at the pharmacy may vary based on market changes on drug prices, as well as where you stand with your annual deductible. Scripta is not a pharmacy or doctor and does not tell you what drug to take or provide medical advice. These alternative medications are options for less costly drugs that your physician may prescribe in place of the medications you are taking now if your physician deems them medically appropriate based on your medical conditions. Scripta has reviewed your current medications only to identify potential cost savings for you to consider and has not analyzed the effectiveness or other therapeutic aspects of these medication alternatives. Do not stop taking your medication, change medication, or start taking a new medication without speaking to your physician and informing your physician of all prescription and over-the-counter medication, vitamins, or other supplements you use. The information contained in this report should not be interpreted as treatment, drug regimen review, or provision of counseling or consultation by a pharmacist, pharmacist, or pharmacy.
